# Shop at **DubLi** with Price-Cutting Gift Cards for Even Better Prices!

**H**aving fun shopping and saving – that’s what DubLi has always stood for. But as DubLi announced on May 11, now you can save even more. The company, likely the world’s most innovative Web 2.0 network marketing company, introduced its new Xpress gift card auctions that day, with which all V.I.P. members can save even more. The gift cards can be turned into cash and can be used for practically any product or service worldwide. The new Xpress gift cards are divided into six different categories, always made available simultaneously. In addition, all V.I.P. members around the world can bid on the gift cards, making for quick discounts in their prices: With each Xpress bid on the gift card’s price, its cost sinks by 0.20 cents – whether the gift card is in Euro or dollars. That means that the price of the gift card can sink far below

what it is actually worth within a few minutes. Once a bidder is happy with the price, they can buy, paying the active price and receiving the full value of the gift card. For example, if a V.I.P. member buys a gift card worth 200 dollars for only 120 dollars, then he or she will have saved 80 dollars or 40 percent with the successful bid, and 200 dollars will be applied to his or her gift card. With the six different gift card categories, practically all goods and services are covered, so that there is truly a very

interesting gift card offer for each and every person. The categories are divided into:

ning in the second month of membership), access to the V.I.P.-only gift card-auctions, and 5 percent cash back on all purchases in the shopping mall. In addition, the V.I.P. packet includes unlimited access to DubLi Entertainment, the DubLi Mastercard, free shipping on all auction products purchased, two chances at the monthly DubLi lottery, and access to both the V.I.P. client referral program and to the DubLi e-wallet. Enter a bid, strike quickly, and win the gift card! But then what? Once you have made a successful bid on an Xpress gift card, the gift card's value will be applied your internal account. Under „Your gift cards“, all transfers into and out of your account are visible. Once your account and its transfers are verified, the money in the account is freely accessible, and can be transferred, according to your preference, into your eWallet account or the DubLi Debit Card (MasterCard). The transfers generally take 24 hours, between Monday and Friday, to arrive after sending.
